PROFESSIONAL SUMMARY

Motivated and analytical Information Technology graduate with hands-on experience in backend development and exposure to business analysis in a corporate environment. Strong foundation in software development using C#, .NET, Java, Python, and SQL, with experience building scalable backend systems and data-driven applications. Passionate about problem-solving, clean system design, and continuous learning.

TECHNICAL SKILLS

- Languages: C#, Java, Python, JavaScript
 - Backend & Frameworks: .NET Framework, RESTful API concepts
 - Databases: SQL, Oracle Database
 - Web Technologies: HTML, CSS, React
 - Tools & Platforms: Git, GitHub, Visual Studio, VS Code
 - Core Concepts: Backend development, database design, system analysis, SDLC fundamentals
-

EXPERIENCE

Vacation Work Trainee – Business Analyst

FNB South Africa

Jul 2025 – Jul 2025

- Supported the Search & Bots product team within the Interface Experience Business Unit.
- Assisted in analysing user journeys and identifying areas for improvement in in-app search, navigation, and shortcuts.
- Proposed system and UX enhancements aimed at improving usability and customer experience.
- Gained exposure to corporate business analysis processes and cross-functional collaboration in a fast-paced environment.

PROJECTS

Gym Tracker Application (Full Stack – React, Backend APIs, SQL)

- Collaborated in a team-based environment to design and develop a full-stack gym tracking system with admin and user roles.
- Contributed to backend logic and data handling for tracking gym entry times, session duration, and user activity.
- Worked with RESTful API concepts and database-backed systems to support real-world usage scenarios.

Personal Portfolio & Virtual CV Website (HTML, CSS, JavaScript)

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and experience.
- Implemented clean UI layouts and responsive design principles for desktop and tablet devices.
- Used the site as a central professional hub for recruiters, linking GitHub projects and technical work.

EDUCATION

Bachelor of Science in Information Technology

North West University

2022 – 2025

National Senior Certificate (NSC)

Randfontein High School

2017 – 2021

ADDITIONAL INFORMATION

- Strong interest in backend systems, software security, and scalable application design.
- Comfortable working independently or within a team-based development environment.
- Actively building personal and academic projects to strengthen real-world development skills.
